

Bay Harbor - The Links & The Quarry

Bay Harbor, Michigan USA
www.bayharborgolf.com

Bay Harbor Golf Club

The Links course was the first to open for play in 1996. It also holds the distinction of being the most expensive nine hole golf course ever built at the time. Initially described as something that belonged in science fiction, the barren landscape looked like it could have been part of the lunar landscape. Most of the unexpected cost involved the kiln dust left from the former cement plant, particularly on holes two and seven. Closely following the shoreline, The Links is meant to evoke the feeling of a Scottish style course and highlight the magnificence of Lake Michigan.

The Quarry is Bay Harbor Golf Club's diamond in the rough and the last course completed. The ruggedness of an existing quarry was preserved to give The Quarry a rough, industrial edge designed to finish in a dramatic style. It is considered to be one of the most unique courses you can play and is a visual delight. It finishes with dramatic flair down to and along the shores of Lake Michigan with some of the most picturesque finishing holes that you'll find anywhere.
